High among the Noble Berkshires  
Overlooking rugged lands  
Glorious in strength and grandeur  
Our dear Alma Mater stands

## DEDICATION

To our noble class advisor who has helped us on our way  
We dedicate this book we write today.  
He has taught us physical science, and our mathematics too  
Causing many sleepless nights and days so blue.  
Through the wisdom of his teaching we learned these words so well,  
Huristic thinking, heliocentric longitude.  
We will always love our Johnny, the advisor of our class.  
Though through these hallowed portals we must pass.  
We raise our voices in praise of thee, Dear Dr. John.  
In pride, in joy, in solemnity, Dear Dr. John.  
Always a fighter from first to last—he'll never be forgotten  
by his class.  
Therefore, we write this book en masse to our Dr. John.

STATE TEACHERS COLLEGE AT NORTH ADAMS

To the Class of 1955:

Although I have known you from the day of your entrance to the college and have taught you for four years, I now as the new President see you depart.

You are few in number, but excellent in ability and sound in mind and body. You are entering an honored profession at a time when teaching needs excellent teachers, not only to uphold the traditions of the profession, but to alleviate the problems of our youth who themselves are confused by threats of world-wide destruction and materialistic philosophies. Though few in number, you can accomplish much if you keep the great and humanitarian goals of education before you.

Our college is proud of you now and will be prouder of you tomorrow. Your success will be our success; your former professors will know that their work with you has been worth while. Fight the good fight and may God bless you all!

Sincerely,

*Elmer K. Freese*

THE IVY POEM

Hey!  
 Hey there! Be quiet!  
 Don't say anything,  
 Be still!  
 They said we were silent,  
 And you don't want to be the one  
 To disappoint them.

Sure

They

Did.

Why a man Why a big man even wrote an  
 Article  
 About our being silent  
 Well, we might be silent,  
 But at least were not  
 Lost

Oh, they have a lot of reasons  
 To back up their statements;  
 Wars, A-Bombs, H-Bombs  
 And a lot of others.

It seems that they have a point.  
 We've listened for four years  
 To that kind of talk,  
 And we didn't know wh at to say  
 About it all.

Why, this week George is  
 Sailing to Europe to  
 Help

Insure

Peaceful

Co-existence

Talk

About

Everything

He doesn't know what that  
 Gobbledegook  
 Means, but he sure is glad to get  
 A free trip to the Continent.  
 Well, frankly, I'm not too  
 Pessimistic about our silence.

Late at night sometimes

We

Talk

It all started when we were  
 Measuring coffee with Eliot's Spoons  
 At first there was a lot of discussion abo  
 Michelangelo

But the subject exlanded, and now  
 We

Talk

About

Everything

We don't let on to anyone that  
 We

Do

This

Because we don't want people to be  
 Embarrassed.

Over calling us

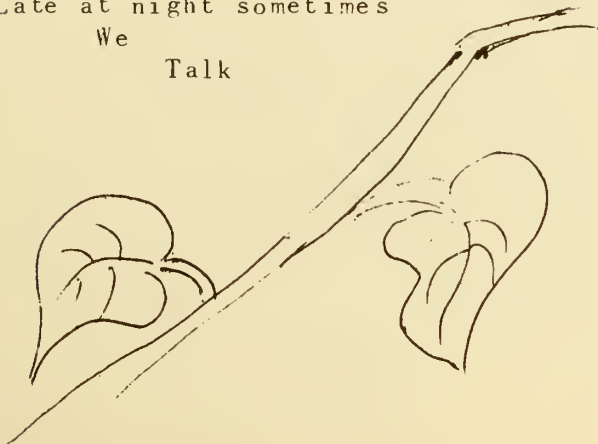

Silent.

But, I'm afraid that soon  
 Those Whispers which started  
 About four years ago are going  
 To

Leak

Out.

And everyone's going to be  
 Surprised!!

## CLASS SONG

For it's a long, long, while from classes to  
training school,

We had our doubts as we came along.

Oh, the years flew by though we thought they  
wouldn't,

We dared to try what they thought we couldn't-

Oh, the hours dwindled down, to a precious few-

Baccalaureate,

Commencement.

We starry-eyed seniors are bidding adieu,

We starry-eyed seniors are now leaving you.

With the athletic program at North Adams comparatively limited, it has been an unavoidable necessity to put all our eggs in one basket, figuratively speaking, and devote our energies to supporting our one intercollegiate athletic activity, basketball.

Basketball at North Adams still in comparative infancy since it dates back only to 1945, has had its feast and famine since that year. Actually, in our four years on the hill it has been a case of playing to keep the sport alive and pointing toward the day when our college will increase in size and have a larger pool of athletes from which to draw.

With limited manpower, and playing our annual schedule against schools four, five and six times our size, it has been a rocky four years but not one tinged with shame by any means. For it has been a happy faculty of the 'Profs' to give every team they've met a good run for their money. With a few exceptions, no team has walked off without knowing they've been in a game.

A bright spot in our four year term of service was the 1952-53 team, which had a creditable season and was able to win ten of its games.

Four-year members of the team are co-captains George Jarck and Edward Lawton and senior letterman Red Helfrich. Jarck and Helfrich played from '51 thru '55, while Lawton entered in '49, played on North Adams' only New England Conference Champions that year, played thru '51, then after two years in the service, returned to play from '53 thru '55.

The outstanding achievement during the four year period was the scoring record of better than 1000 points over that time set by George Jarck who proved to be one of the better players in the New England Conference and a figure who will last long in the athletic annals of N.A.S.T.C.

As athletics have become an integral part of the collegiate programs throughout the nation, it is the sincere wish of the graduation class that basketball and possibly other athletics will grow and thrive commensurately with the planned expansion in the future of our school.
